PARRETT & NEVES, LTC.,

BOROUGH OF

GILLINGHAM Kent

ANNUAL REPORT

OF THE

Medical Officer of Health

School Medical Officer

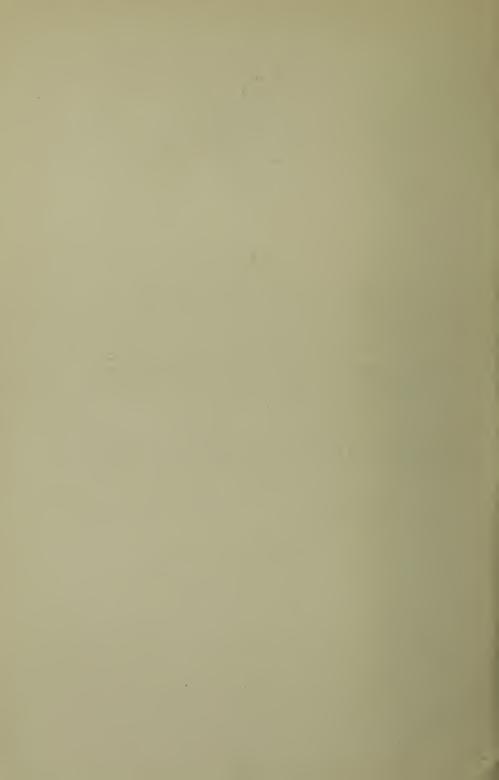

for the

Year ended 31st December, 1939

BY

W. A. MUIR, M.D., D.P.H.

Medical Officer of Health Medical Officer Maternity and Child Welfare Centre School Medical Officer

HEALTH COMMITTEE, 1939-1940.

Composed of all the Members of the Council.

Chairman: Alderman J. W. DOBSON.

MATERNITY AND CHILD WELFARE COMMITTEE, 1939-1940.

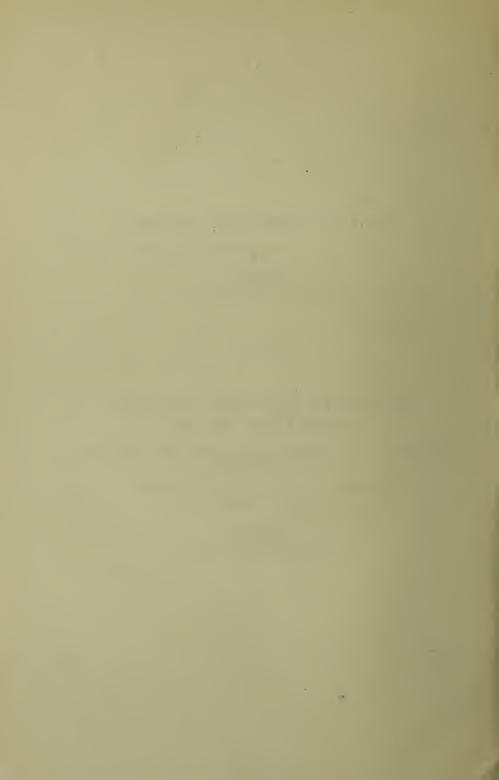

Composed of all the Members of the Council, and the following Co-opted Members:—

Mrs. Eley. Mrs. H. Hurwitz.

Miss V. Worthy.

Chairman:

Alderman Mrs. B. J. PARR.

Public Health Department,

Municipal Buildings,

Gillingham, Kent.

October, 1940.

To the Mayor, Aldermen and Councillors of the Borough of Gillingham.

LADIES AND GENTLEMEN,

I have the honour to submit the annual report on the health and sanitary circumstances of the Borough for the year ending 31st December, 1939.

I regret the late date of publication, but local statistics were not received from the Registrar-General till October, 1940.

For obvious reasons the size of the Report has been curtailed.

On the outbreak of war in September, 1939, the ordinary work of the Health Department was seriously interfered with, very largely due to many of the staff taking an active part in A.R.P. duties and evacuation schemes.

The health of the Borough during 1939 may generally be considered satisfactory.

I have the honour to be,

Your obedient servant,

W. A. MUIR,

Medical Officer of Health.

STAFF—PUBLIC HEALTH DEPARTMENT.

Medical Officer of Health: *W. A. Muir, M.D., Ch.B., D.P.H.

Assistant Medical Officer of Health: *Meta L. Dunlop, M.B., B.Ch., D.P.H.

Anaesthetist (part time):

S. BATHER, B.A., M.R.C.S., L.R.C.P.

Diphtheria Immunisat on (part time):
DR. AGNES KELLY.

Dental Surgeon (part time): (Maternity and Child Welfare) F. J. BLOOR, L.D.S. (Eng.).

Senior Sanitary Inspector:
*David L. Ball, C.R.S.I.

Sanitary Inspectors:

*G. H. Ridgway, C.R.S.I.

*W. G. McDonald, Cert. S.I.B.

*R. C. Langley, Cert. S.I.B.

*‡S. Davies, Cert. S.L.B. (Resigned 2.9.39).
*‡F. Pickering, Cert. S.I.B. (Commenced 27.11.39).

Health Visitors:

*§ Mrs. A. Leach (C.M.B. Cert., Health Visitor's Cert.).

*†§Miss R. Hopkins (C.M.B. Cert.).

*† Miss N. Legg (C.M.B. Cert., Health Visitor's Cert.).

*† Miss E. M. Ross (C.M.B. Cert.).

*†\$Miss M. Hughes (C.M.B. Cert., Health Visitor's Cert.).
*†\$Miss H. Parry (C.M.B. Cert., Health Visitor's Cert.).

(Municipal Midwives)

Miss I. Drury, C.M.B., S.R.N. (Commenced 1.5.39).

Miss E. Harding, C.M.B., S.R.N.

Miss W. D. A. Maisey, C.M.B., S.R.N.

Mrs. M. G. Salter, C.M.B.

Miss G. I. Stone, C.M.B. Miss A. Willey, C.M.B.

Chief Clerk: F. Eric Young.

Clerks:

E. Rundle (Resigned 6.10.39).

S. Pett.

V. P. Johnson.

Miss V. Marsh (Resigned 9.9.39).

Miss G. Palmer (Commenced 28.8.39). Miss E. Bryant (Commenced 27.11.39).

Ambulance Driver and Mortuary Attendant:

John Sparks.

*Indicates officials to whose salaries contribution is made under the Public Health Acts or by Exchequer Grants.

†Indicates general trained nurse.

†Also Inspector under Shop Acts. §Two-thirds time given to Maternity and Child Welfare, one-third to School Medical work.

||Half-time given to School Medical work, half to Maternity and Child

Welfare.

VITAL STATISTICS.

Population.

The Registrar-General's estimate of population in June, 1939, was 74,070, compared with 70,600 in the previous year.

The estimated CIVILIAN population was 68,060.

Birth Rate.

Registered live births numbered 1,072, but after correction for inward and outward transfers the net number properly belonging to Gillingham is 1,032. This represents a birth rate of 13.9 per 1,000 of the population.

The rate for England and Wales was 15 and for London 12.3

per 1,000 of the population.

Illegitimate Live Births.

The number assigned by the Registrar-General is 31 or 3 per cent., of all live births.

Still-Births.

The number registered was 31, of which 3 were illegitimate.

Death Rate.

Deaths of persons properly belonging to the Borough numbered 708, of which 390 were males and 318 females. The crude death rate was therefore 10.4 per 1,000 of the estimated population.

The figure for the previous year was 9.35 per 1,000. The death

rate for England and Wales was 12.1 and for London 11.4.

The Registrar-General has supplied an Areal Comparability Factor which when multiplied by the crude death rate in the area modifies the latter so as to make it comparable with the crude death rate for the country as a whole or with the similarly adjusted death rate for any other area.

The factor for Gillingham being 1.04 the adjusted death rate is 10.8, which is comparable with the figure of 12.1 for England

and Wales.

Deaths in Public Institutions.

Two hundred and seventy-two deaths or 38 per cent. of the total took place in institutions:—

St. Bartholomew's H			ester		 41
County Hospital, Cha					 128
County Mental Hospi	tal,	Barming	Hear	th	 7
Other County Hospit		•••			 56
Keycol Hill Hospital					 7
Other Institutions	• • •				 33
					272

Natural Increase of Population.

This is measured by the excess of births over deaths. The figure for the year 1939 was 324 and for the previous years as follows:—

Natural Increase

Year.				of	Population
1935					230
1936					252
1937			• • •		294
1938					373
1939	• • •	• • •	• :•		324

on.

Infant Mortality.

The rate for the year was 32 per 1,000 births. (Details given in Maternity and Child Welfare Section of Report.)

Causes of, and Ages at, Death.

The Table on Page? shows that 227 deaths were due to Heart Disease (many of these were persons over 65), 93 to Cancer and Malignant Disease, 34 to Tuberculosis, 22 to Pneumonia, 41 to Cerebral Hæmorrhage, 13 to Bronchitis and 21 to violence.

Twenty-two infants died from congenital debility, prematurity

and malformations.

Cancer and Malignant Disease.

Deaths numbered 93, of which 50 occurred in males and 43 in females. Cancer was therefore responsible for 13 per cent. of the total deaths; the death rate was 1.4 per 1,000 of the population.

Year.		D	eath Rate.	Percentage of Total Deaths.
1923-1932	• • •	 	1.3	12.2
1933		 	1.6	15.7
1934		 	1.4	13.3
1935		 	1.9	16.6
1936		 	1.3	12.7
1937		 	1.4	12.6
1938		 	1,6	16.8
1939		 	1.4	13.0

GENERAL PROVISION OF HEALTH SERVICES.

Nursing in the Home. See previous Reports.

Midwives.

The number of registered midwives at 31st December was 13, of whom 6 are members of the Corporation staff.

Health Clinics and Treatment Centres. See previous Reports.

Hospitals. See previous Reports.

Institutional Treatment for Unmarried Mothers and Illegitimate Children. See previous Reports.

Ambulance Facilities. See previous Reports.

Laboratory Work.

Bacteriological examinations are carried out at the Kent County Council Laboratory, Maidstone, and analyses of water, etc., by the County Analyst, Maidstone.

The bacteriological work carried out during the year was as follows:—

	No.	Percentage Positive.
Swabs for B. Diphtheria:		
From School Člinics	200	2.5
From Private Practitioners	345	16.2
Sputa for Tubercle Bacillus:		
From Tuberculosis Officer	149	32.2
From Private Practitioners	112	9.8
Hairs from Ringworm Parasite:		
From School Clinics	2	100.0
Swabs for Streptococci	56	25.0
Miscellaneous	8	50.0

Reports on bacteriological examinations of milk and chemical analyses of food are given in the "Food Section" of the Report.

PREVALENCE OF, AND CONTROL OVER, INFECTIOUS AND OTHER DISEASES.

Notifications of infectious diseases numbered 375.

There were 184 cases of scarlet fever and 86 of diphtheria.

Smallpox.

No cases were notified.

Vaccination.

The percentage of infants known to be successfully vaccinated was 55.5. The percentage of statutory declarations was 36.8.

I am indebted to the Vaccination Officer for the following figures:—

Surco.		
I.	Number of cases on Birth Lists received during 1939, but actually registered between 1st December, 1938, and 30th November, 1939	1119
2.	Number of Vaccination Certificates received between 1st January, 1939, and 31st December, 1939	621
3.	Number of Statutory Declarations received between 1st January, 1939, and 31st December, 1939	412
4.	Number of Postponement Certificates received between 1st January, 1939, and 31st December, 1939:—	
	(a) Health of Child (b) Condition of house or prevalence of Infectious Disease in District	28
5.	NT 1 00 110 1 0 T	Ι
	1939	4
6.	Number of cases removed from District	121
7.	Number of cases not traced	51

Scarlet Fever.

Notifications numbered 184 (213), equal to an attack rate of 2.7 per 1,000 of the population.

Number of Houses in which

One case occurred		 	 	134
Two cases occurred		 	 	18
Three cases occurred		 	 	2
Four cases occurred		 	 	2
Number of "return ca	ases ''	 	 	4

Table showing notifications, deaths, etc., from Scarlet Fever during 1918-1939:—

Periods	Population	Number Notified	Deaths Registered	Treated in Hospital	Percentage Removed to Hospital	Attack Rate per 1,000 of population	Mortality per 1,000

[†] Borough extended April, 1929.

Diphtheria.

IOI cases were notified but 15 were found to be suffering from tonsilitis. This represents an attack rate of 1.3 per 1,000 of the population.

^{*} Excluding non-civilians.

Number of houses in which

One case occurred	•••		 		60
Two cases occurred	• • •	• • •	 	•••	6
Three cases occurred			 	•••	2
Four cases			 •••		2

Three cases proved fatal, but none was immunised against the disease. Their ages were 8, 7 and 4 years. Two were visitors to the district.

Anti-toxin is available at the Health Department during office hours. When the office is closed it may be obtained at 39 and 41 Green Street.

Units of serum issued numbered 592,000.

Table showing notifications, cases isolated, number of deaths, etc., from Diphtheria during 1918-1939:—

Period	Population	Number Notified	Deaths Registered	Treated in Hospital	Percentage Removed to Hospital	Attack Rate per 1,000 of population	Mortality per 1,000 of population

^{*} Excluding non-civilians.

Immunisation against Diphtheria.

During the year 727 children were immunised, of whom 305 were under 5 years of age.

T.A.F. was administered in 3 doses at fortnightly intervals. The first 2 doses were 1 c.c. and the 3rd 1.5 c.c. Children under 5 years were treated with two injections of A.P.T. (0.2 c.c. and 0.5 c.c.).

[†] Borough extended April, 1929.

MATERNITY AND CHILD WELFARE.

Public Health Act, 1936.

Births require to be notified to the Local Authority within 36 hours. The number received was 1,061, which represents 99 per cent. of those registered.

Ninety-nine per cent. were notified by midwives, the remainder by doctors or parents. The figure 1,061 includes births taking place in the Borough, but whose usual residence is elsewhere. After correction for inward and outward transfers the number properly belonging to the Borough is 1,032, compared with 1,033 in the previous year.

Of the total births notified (viz., 1,061), 47 per cent. (53) took place in institutions.

Twin births numbered 8.

Home Visiting.

The town is divided into six areas, each with its own health visitor who is responsible for visits under the Maternity and Child Welfare and the School Medical Services.

Home visits under the former numbered 10,805.

The following is a summ	nary of	home	visit	s:—	
· ·				1939.	1938.

Enlarged Tonsils and Adenoids.

Children under 5 years are examined at the child welfare centres and, if requiring operation, referred to a private doctor or to hospital. The number referred was 6. Those sent to St. Bart's. Hospital, Rochester, are provided with a subscribers' letter.

Ophthalmic Treatment.

Twenty-one children affected with squint were examind at the ophthalmic clinic by Dr. Dunlop, and glasses prescribed for 16. Attendances numbered 41.

Dental Defects.

A clinic is held weekly for expectant and nursing mothers and children under 5 years of age.

The following is a summary of the work during the year:-

Number of	sessions held	42

Persons originally receiving free milk but later, by virtue of improved economic circumstances, entitled only to buy, have been classified as buyers.

The approximate cost for the year ending 31st December, was £199.

Methods of Feeding (under 9 months).

For many years records have been kept of methods of feeding at the first home visit and at the time of the first visit to an infant consultation clinic.

At the former 83.0 per cent. were breast-fed, but at the latter 26.1 per cent. were "on the bottle."

1. First Home Visits. (Average age 14 days).

		Percentage	Percentage I	
		Breast-fed	Breast+Bottle	Bottle only
1936		83.6	7.2	9.2

Maternity and Nursing Homes.

Two homes were on the register at the end of the year under the Public Health Act, 1936, with a total accommodation of 16 beds.

Institutional Midwifery.

12 civilians were admitted to the Naval Maternity Home and 34 to the County Hospital, Chatham.

Supervision of Midwives.

The Corporation is the Local Supervising Authority under the Midwives' Acts, 1902-1936. 20 midwives gave notice of their intention to practice during the year.

The following return was made to the Ministry of Health:—

		Midwives in Instn's	Totals

Records of Sending for Medical Help.

Under the rules of the Central Midwives Board midwives are required to summon medical help in certain defined emergencies.

During the year it was sought on 289 occasions, of which 252 were for the mother and 37 for the child. The percentage of births in which medical assistance was considered necessary was therefore 27 per cent.

Notifications Received			Percentage of Births

Slaughter of Animals Act, 1933.

In accordance with Section 3 of this Act the number of persons licensed to slaughter is 37. Licenses remain in force for three years.

Potted and Preserved Meat Premises.

At 31st December, premises registered number 95.

Ice Cream Shops.

At the end of the year the number on the register was 125 compared with 123 in the previous year.

Fried Fish Shops.

Number on register is 38. Visits numbered 74.

HOUSING.

Action under the Housing Acts, 1930-36 may be summarised as follows:—

	Dwelling-houses	Persons	Dwelling-houses
Years	Demolished	Displaced	Made Fit
1931-1939	75	302	36

In addition, 60 undertakings not to let for human habitation have been accepted by the Corporation; 22 houses were demolished as the result of informal action and 2 made fit. Parts of 6 houses were closed.

Repairs in most instances were enforced under the Public Health Act.

NEW HOUSES.

At 31st December, there were approximately 19,990 houses in the Borough. The number erected during the year was 325.

Summary of Years 1921-1939.

I am indebted to the Borough Surveyor for these figures:

Housing Consolidated Regulations, 1925 and 1932.

236 houses were subjected to a full routine examination, details entered on "housing cards" and notices served where defects were found.

HOUSING SUMMARY.

I.	Inspection of Dwelling-Houses during the Year:— (1) (a) Total number of dwelling-houses inspected for housing defects (under Public Health or Housing	
	Acts) (b) Number of inspections made for the purpose (2) (a) Number of dwelling-houses (including under sub-head (1) above) which were inspected and recorded under the Housing Consolidated Regu-	887 2,984
	lations, 1925 (b) Number of inspections made for the purpose (3) Number of dwelling-houses found to be in a state so dangerous or injurious to health as to be unfit for	236 1,106
	human habitation (4) Number of dwelling-houses (exclusive of those referred to under the preceding sub-head) found not to be in all respects reasonably fit for human	7
_	habitation	763
2.	OF FORMAL NOTICES:— Number of defective dwelling-houses rendered fit in consequence of informal action by the Local Authority or	•
	their officers	243
3.	ACTION UNDER STATUTORY POWERS DURING THE YEAR:— Proceedings under Public Health Acts:— (I) Number of dwelling-houses in respect of which notices were served requiring defects to be	
	remedied (2) Number of dwelling-houses in which defects were remedied after service of formal notices:—	569
	(a) By owners (b) By local authority in default of owners	538 Nil
	Proceedings under Sections II and I3 of the Housing Act, 1936—	
	(1) Number of dwelling-houses in respect of which demolition orders were made	6
	(2) Number of dwelling-houses demolished in pursuance of demolition orders	6
	(3) Number of dwelling-houses where owner gave undertaking not to let for human habitation	1
	Proceedings under Section 12 of the Housing Act, 1936— (1) Number of separate tenements or underground rooms in respect of which closing orders were	
	made	I

Total number of	room	s fumig	ated or	spray	ed		403

Rats and Mice (Destruction) Act, 1919.

The Inspector appointed under the Act, investigated 31 complaints.

Shops Acts and Shops (Early Closing) Order.

One of the Sanitary Inspectors is also Shops Inspector and gives approximately one-third of his time to duties concerned with the Shops Acts.

Visits to shops numbered 807.

Notices were served in connection with the following	owing	defects	:
Insufficient W.C. accommodation			4
Unsuitable sanitary accommodation			2
Insufficient washing facilities			2
Unsatisfactory washing accommodation			1

LEGAL PROCEEDINGS.

- (1) Failing to provide galvanised iron dustbin. Fine of 10 -.
- (2) Ditto. Case dismissed.

LICENCES.

Licences were granted for	the	following	:	
Petroleum				69
Calcium Carbide				í

MORTUARY.

48 bodies were received and 38 post-mortems performed.

^{*} Hon. Staff, St. Bartholomew's Hospital, Rochester.

MUNICIPAL BUILDINGS.

GILLINGHAM, KENT.

March, 1940.

To the Chairman and Members of the Education Committee.

LADIES AND GENTLEMEN,

I herewith submit the Annual Report on the work of the School Medical Department for the year ended 31st December, 1939.

On the outbreak of war, on 3rd September, this work was disorganised. Schools were re-opened for voluntary attendance on 16th October, and the following day facilities were provided for the treatment of minor ailments at the clinics. Attendances during the remainder of the year were small. During November, the dental clinic was open for one session per week. During the period September to December no routine medical examinations were carried out; they were re-started in January, 1940.

I am,

Your obedient servant,

W. A. MUIR,
School Medical Officer.

SUMMARY

No. on roll, July, 1939			7985
Average attendance to July, 1939			7059
"Routine" cases examined			1686
Total medical examinations			4681
Visits to schools by nurses			287
Visits to homes by nurses			1692
Inspections by school dentist			4742
Treated by school dentist			940
Percentage of average attendance found vern	ninous	·	4.6
Percentage of average attendance excluded	for	ver-	
minous conditions	•••		1.3
Total attendances at various clinics (dental	exclud	led)	7678
Gross cost of elementary education, year en	ding	eret	
March, 1939			£107,958
Gross cost of school medical department for ye	ar end	ling	
31st March, 1939			£4,232
Net cost of school medical department to rate	payers	S	£2,023

STAFF

Details are shown on page 2.

HYGIENE

The following school buildings fail to reach the standards of modern requirements:—Forge Lane, Canterbury Street Girls', James Street Boys', Arden Street Boys' and Girls'. They will be closed when a new school is erected at Hillyfields.

Twydall Lane School erected in a rapidly expanding part of the Borough to accommodate 320 juniors and infants was brought into use during the year.

MEDICAL INSPECTIONS

Routine inspections of the Board of Education's three age groups were carried out.

- (I) On entry to school.
- (2) 8-9 years.
- (3) 12 years.

Total medical inspections and re-inspections numbered 4,681.

All parents are notified of the time and place of examination and are encouraged to attend.

The following table indicates that they were present in large numbers.

numbers.	Group			1938	1939
Entrants		 •••	∫ Boys ∫ Girls	93% 93%	96% 93%
Intermediates		 •••	Boys Girls	86% 84%	89% 87%
Leavers		 •••	Boys Girls	57% 68%	61% 71%

NUTRITION

In accordance with the Board's requirements children examined at routine inspections are classified as "excellent," "normal," slightly sub-normal," or "bad." The figures for the last 5 years are as follows and show little variation:—

	Excellent %	Normal	Slightly Sub-normal %	Bad %
1935	13.2	84.7	2.0	.I
1936	10.5	87.8	1.7	
1937	12.3	85.3	2.4	 .
1938	13.0	85.3	1.7	2 cases
1939	15.9	82.2	1.9	_

Heights and weights were as follows: --

HEIGHTS AND WEIGHTS

			Boys		
	Age		No. examined	Average Height in inches	Average Weight in lbs.
56	years	• • •	150	$42\frac{1}{2}$	$41\frac{3}{4}$
6—7	,,	• • •	33	45	$46\frac{3}{4}$
8—9	,,	• • •	389	50	$58\frac{1}{2}$
12—13	,,	• • •	188	$56\frac{1}{2}$	$80\frac{3}{4}$
13—14	,,	• • •	19	60	$93\frac{1}{2}$
			GIRLS		
5—6	years		155	$42\frac{1}{4}$	$40\frac{3}{4}$
67	,,	• • •	37	$44\frac{3}{4}$	45
8—9	,,	• • •	436	50	$56\frac{1}{4}$
12—13	,,	• • •	261	58	$82\frac{3}{4}$
13—14	,,	• • •	18	60	92

Nutrition surveys are made periodically and suitable cases recommended for the provision of milk.

PROVISION OF MILK

Pasteurised milk is the only grade permitted. $\frac{1}{3}$ pint twice daily is supplied free where the total family income falls within the approved scale if considered necessary on medical grounds. It is also granted in selected cases on medical grounds only.

SCHOOL CANTEENS

Two are situated in the more rural part of the Borough, one at Hempstead and the other at Rainham Junior Mixed School. During the 12 months ending 31st March, 1939, the Rainham canteen supplied 24,461 (21,355) dinners, of which 142 were provided free: at Hempstead the number was 9,671 (9,765), of which 866 were free.

PHYSICAL TRAINING.

Two organisers appointed by the Kent County Education Committee act in an advisory capacity in Gillingham.

SWIMMING

Instruction is given to selected children at the Corporation open-air swimming pool.

INFECTIOUS DISEASES

The following summary gives the number of patients and contacts excluded during the years 1929-39 (Private schools included).

1000,						
			Scarl	let Fever	Dipht	heria
Year			Cases	Contacts	Cases	Contacts
1929	• • •	•••	160		144	
1930	•••	• • •	93	. 	24	
1931		•••	55	64	II	22
1932	•••	•••	102	112	7	10
1933			122	130	14	20
1934		*(* * *	62 .	63	38	40
1935	•••		62	5 <i>7</i>	14	37
1936	•••	• • •	69	50	5	6
1937		•••	151	135	28	34

1939		•••	121	134	49	72

MEASLES, WHOOPING COUGH, CHICKEN-POX, MUMPS

The following table illustrates the well-recognised occurrence of bi-annual epidemics of measles.

	Year	1935	1936	1937	1938	1939
Measles		6	821	3	773	IO
German measles		22	13	II	18	13
Whooping cough		88	400	170	128	208
Chicken-pox		425	116	531	173	563
Mumps	•••	94	500	593	29	9

The attendance at Byron Road Infants' School fell below 60% during the period 30th January to 3rd February, due to the prevalence of whooping cough.

FOLLOWING-UP BY NURSES

The nurses paid 1,692 (2,836) home visits, of which 860 were to make enquiries with regard to children suffering from infectious diseases.

NOSE AND THROAT DEFECTS

83 children received operative treatment at St. Bartholomew's Hospital, Rochester; the parents of 51 of these were subscribers.

25 children received operative treatment elsewhere, the majority at the Kent County Ophthalmic and Aural Hospital, Maidstone.

Children are inspected by the school dentist prior to operation.

OPHTHALMIC CLINIC

Dr. Dunlop is in charge of the eye clinic. 239 children made 459 attendances; glasses were prescribed in 190 cases and obtained in 173 (91 per cent.).

ORTHOPAEDICS AND POSTURAL DEFECTS

Children receive treatment at St. Bart's Hospital, Rochester, or the London Orthopædic Hospital. 6 were provided with surgical appliances at a net cost to the authority of £14 8s. 3d.

Cripples are defined by the Board as those incapacitated to such a degree as to be unable to take part, in any complete sense, in physical exercises or games or to receive proper benefit from instruction in ordinary elementary schools.

At the end of the year there were 12 on the register.

EXCEPTIONAL CHILDREN

BLIND CHILDREN

At the end of the year there was one "totally blind" child on

the register.

There were 3 partially sighted, i.e., "children who, though they cannot read ordinary school books or cannot read them without injury to their eye-sight, have such power of vision that they can appropriately be taught in a school for the partially sighted.

They are maintained in special schools.

DEAF CHILDREN

4 children "too deaf to be taught in a class of hearing children in an elementary school," are maintained in the Royal Deaf and Dumb School, Margate.

EPILEPTICS

There are 8 on the register suffering from "mild epilepsy." In addition one cripple is subject to severe attacks of the disease.

MENTAL DEFECTIVES

The register for children aged 7 to 16 years contains 71 names.
There were in addition 6 border-line cases.

The 71 children are classified as follows:—

Notified to Local Control Authority during 1939 and previous years.	Imbeciles Feeble-Minded (Ineducable) Feeble-Minded (Educable) (Special circumstance case)	Ğ
	Feeble-minded (Educable)	41
1	Total	71

The following annual report was received from Miss Nugent, the Secretary of the Kent Voluntary Association for Mental Welfare:—

"The total number of children of school age under the supervision of the Association on 1st January, 1939, was forty-seven. During the year five new cases have been received from the School Medical Officer, making a total of fifty-two.

"The details of these are as follows:-

I. Disposals.

	Transferred to County M.D. Committee for Frie	ndly		
	Supervision		4	
	Withdrawn as no longer requiring supervision		I	
	Removed out of area	•••	3

			-	42
				_
				52
	Total number of children under the supervi			
	of the Association on the 31st December, 1	1939		43

Reports.

"Forty-five reports have been rendered during the year, which included First Reports on new cases, Annual Reports on routine cases, Special Reports on children in whose cases some action is thought to be desirable, including those where continued supervision is necessary and notification to the County Mental Deficiency Committee is recommended for Friendly or Statutory Supervision.

Visits.

"Members of the staff have paid 99 visits to the homes of the children, and have also had interviews with Headmasters and Headmistresses at the schools. Members of the Local Case Committee have also visited one or two of the homes.

After Care.

- "The Association continues to keep in touch with those children under or over 16 years of age who are not attending school, and the parents are often very grateful for friendly advice given when discussing their children's problems with the Visitor.
- "The four children who have been transferred to the County M.D. Committee for Friendly Supervision are unemployed. Two are at home (one is quite unemployable), one is at the Salvation Army Training Home, Chatham, and one who was in the Medway Cottage Homes, has been evacuated to a reception area.
- "Four of the thirteen children under the age of 16, but attending no school, are at home, one is receiving Home Teaching, the remaining eight are all in employment.

Occupation Centre.

- "The number of children on the register during the first eight months of the year varied between 14 and 16. The Centre was not re-opened after the Summer holidays owing to the outbreak of hostilities, as in view of the number of low grade patients, it was felt that it would be impossible to convey them to a place of safety in time in the event of an air attack.
- "A scheme of Home Teaching arranged by this Association, and approved by the Executive Council and the Sub-Committee of the County Mental Deficiency Committee is being carried out with great success. The Supervisor visits some of the homes of the children twice a week and gives a lesson of about one hour's Juration. A certain number have left the area temporarily.
- "Mrs. Mitchell, who was Supervisor for several years and did such splendid work at the Occupation Centre, resigned at the end of the Spring term. She was succeeded by Miss Crees.

"Through the kindness of friends the children again had a very enjoyable Summer treat, in an attractive garden, where they played games and were given tea.

"The Voluntary Helpers continued to attend the Centre regularly and gave valuable assistance to the Supervisor. Since the closing of the Centre these friends continue to keep in touch with the children.

Appreciation.

"The Association wishes to thank the Medical Officer of Health and the Secretary of the Education Committee for their willing co-operation, also Members of the Local Case Committee, Teachers and all those who assist in forwarding the work in a voluntary capacity."

SPECIAL SCHOOLS

There are none in the Borough but the Authority maintains children at the following institutions for the defects indicated:—

Number of Children

East London Home & School, Upper Clapte	4 Blind	
Royal Deaf & Dumb School, Margate		4 Deaf and Dumb
Besford Court, Worcestershire		1 Mentally Defective
Kingsmead School, Hertford		I Mentally Defective
Beacon School, Lichfield		I Mentally Defective
		4 Crippled
West End Hospital for Nervous Diseases	• • •	1 Crippled
,, obt =====		rr

CO-OPERATION OF TEACHERS

The assistance of teachers has been most valuable in many directions throughout the year.

The efficiency of the school medical work is greatly enhanced by their co-operation.

CO-OPERATION OF VOLUNTARY BODIES

The services of the inspector of the N.S.P.C.C. proved effective in a number of cases where parents persistently refused to obtain treatment for their children.

The Blind and Cripple Guild gave much-appreciated assistance.

UNCLEANLINESS

The average number of visits by nurses to school departments was 6. Total examinations numbered 16,206 and 325 individual children were found unclean.

The 325 unclean children were distributed as follows:

In	Infant	and Mixed	Schoo	ls	 Approx.	58%
	Girls'	Schools			 ,,	34%
	Boys'	Schools			 ,,	8%

The following percentages are interesting: ___

TABLE V.—DENTAL INSPECTION AND TREATMENT

The heading "Specials" in this Table relates to all children inspected by the School Dentist otherwise than in the course of the routine inspection of children in one of the age groups covered by the Authority's approved scheme, namely, to children specially selected by him, or referred by Medical Officers, Parents, Teachers, etc., on account of urgency. The number inspected in each routine age-group are separately shown, as well as the total, but under "Specials" only the total number are given.

Temporary fillings, whether in permanent or temporary teeth, are recorded as other operations.

(1) Number of children inspected by the Dentist

(a)	Rou	tine .	Age-	groups
